Dear Sir/Madam,

Sub: Submission of information pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 – Update on Block B-80

We inform that, due to adverse weather conditions and in the interest of safety, the Floating Storage Offshore (FSO) unit deployed in Block MB/OSDSF/B-80/2016 (B-80) has been safely de-moored from the Single Point Mooring (SPM) and has been anchored at a secure location for over a week. Consequent to the above, production from the field has been temporarily suspended.

Since the de-mooring of the FSO, our marine team has been monitoring the weather conditions. We are prepared for re-mooring the FSO to the SPM as soon as the weather improves, allowing us to resume production from the field under favorable conditions. In the interim, the wells are secured with diesel and chemicals, and the export flowline is flushed with water. We will inform the stock exchanges on recommencement of production.

The additional information required in terms of SEBI circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2023/123 dated July 13, 2023 is given in Annexure - I.

The above information is also available on the website of the Company - www.hoec.com. We request you to kindly take our above submission on record.

Thanking you,

Yours Sincerely,

For Hindustan Oil Exploration Company Limited

G. Josephin Daisy
Company Secretary

Annexure I

Expected quantum of loss / damage caused	Minimal losses expected
Whether loss / damage covered by insurance of not including amount	Not Applicable
Estimated impact on the production / operations in case of strike / lockouts / disruption	The disruption is on account of adverse weather conditions during monsoon, which is normal in nature for any offshore oil and gas E&P operations.
Factory / unit where the strike / lockout / disruption takes place including reasons for such strike / lockout / disruption	Western offshore - Block MB/OSDSF/B-80/2016 (B-80)
